Industrial Landscape

Beautiful environments along the river

In the heart of the city, the beautiful buildings are reflected in the waters of the river and the waterfalls roar. Here you will find several of Norrköping's main tourist attractions, but just strolling through the Industrial Landscape is an experience in itself.

Norrköping

The river's swirling waters follow the city like a life-giving artery, bringing peace and movement – you can even fish in the middle of the city! Salmon are plentiful and if you are lucky you can see them playing in the salmon ladder in Strömparken.

Hällristningarna (Rock carvings)

Did you know that Norrköping has more rock carvings within its city limits than any city in the world. The ones that are most accessible are located in Himmelstalund and the City Museum (Stadsmuseet) usually organizes tours of these during the summer.

Löfstad Castle – castle, commercial garden and inn

A fully furnished historic castle, good food, flowers for sale and a beautiful park to stroll in – what more can you ask for from a tourist attraction.

Vikbolandet

Just a boat trip across Bråviken from the Kolmården forests, the undulating landscape offers, among others, an ostrich farm, castles, an ice cream factory, farm shops and at the far end, Arkösund. A true rural idyll.

Göta Canal

The canal celebrated its 200 year anniversary in 2022. Both in Mem and Norsholm you can have a coffee and watch the boating life or everyone who cycles along the channel. From Norsholm you can walk to Brådtom Sluss.

Our best **Nature experiences & hiking trails**

Norrköping's surroundings offer wonderful nature experiences. Marmorbruket is a classic excursion destination that offers both nature and culture with adorable views of Bråviken. Here you can hike along Marmorbruksleden or visit the museum. Head to Getåravinen and be fascinated by the greenery and the stream. The adventurous can climb the slopes of Lake Ågelsjön, which is one of the country's best climbing spots. Or maybe watch seabirds at Svensksundsviken.
